ENGINEERS WEEK 2021

February 23 - February 27, 2021

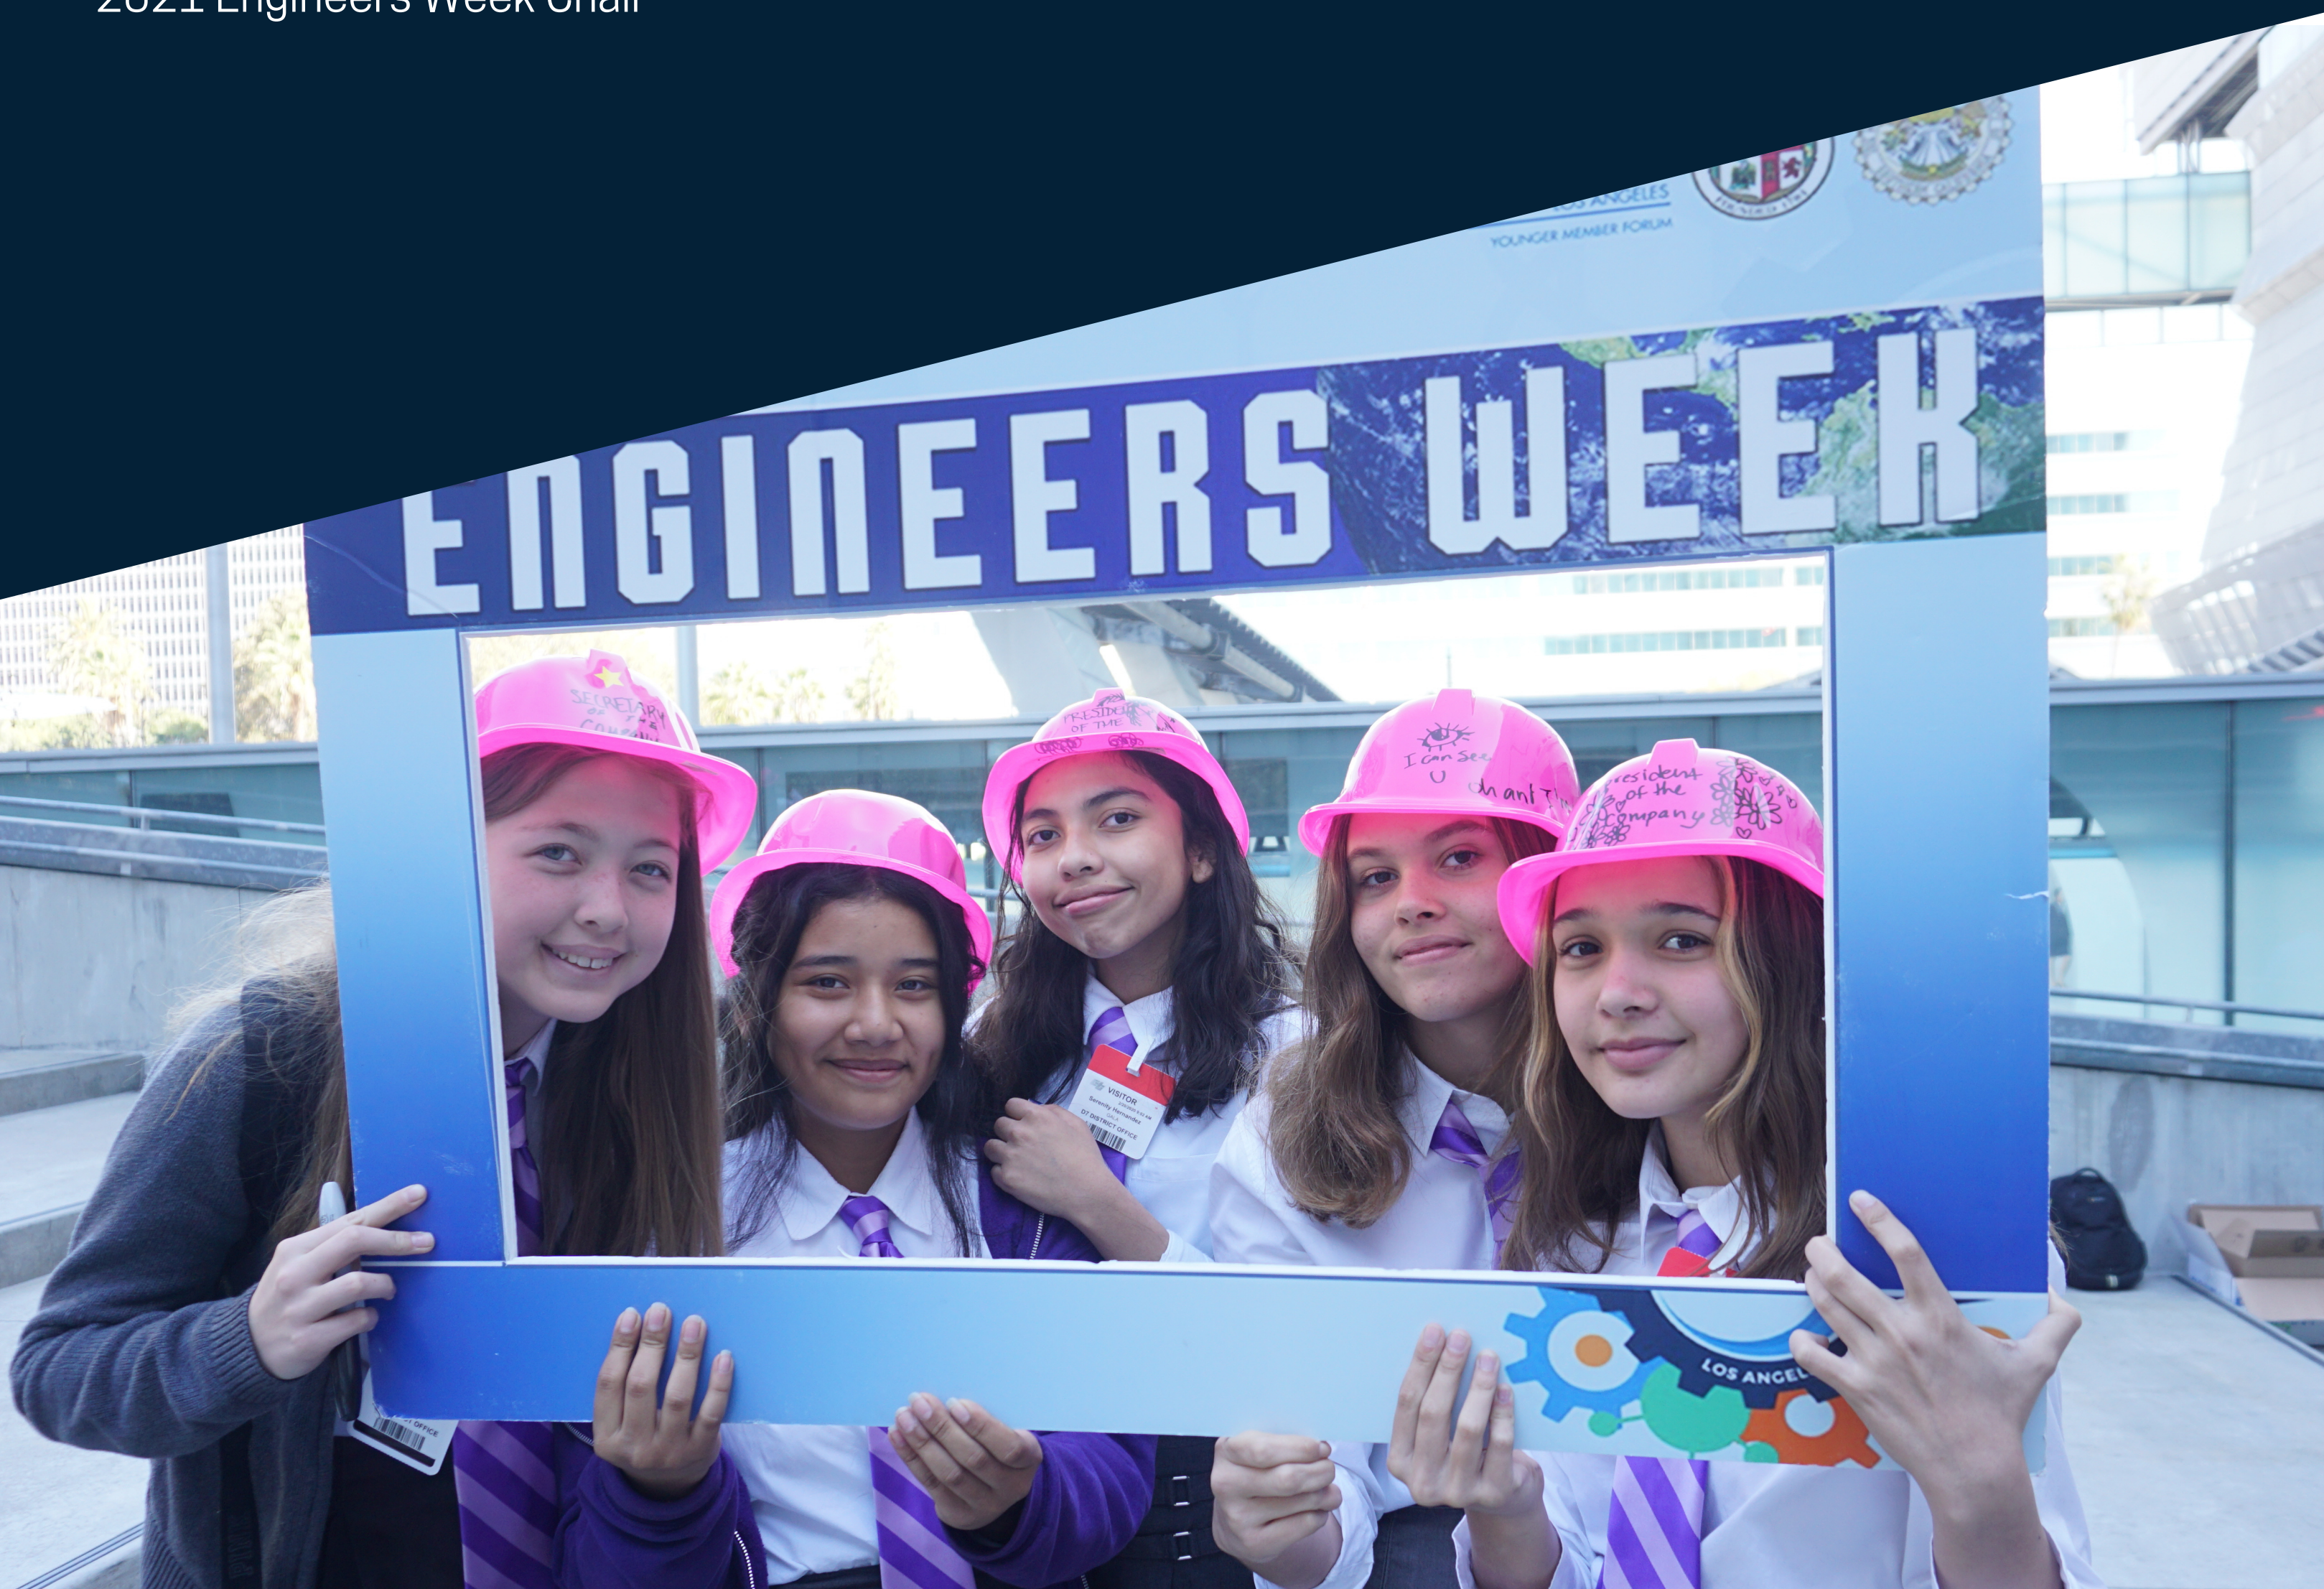

Imagining Tomorrow

THANK YOU FOR CONSIDERING US

I am so happy that you would like to learn more about this awesome week celebrating the engineer! I am the Engineers Week Chair for 2021, and I am so excited to hold events for students passionate about STEM and creating events that support them to pursue their dreams! I would have loved to participate in a week like this as a student, so it gives me great joy to be able to provide Engineers Week events for other students and future engineers!

2020 EVENTS

Elementary School Day

Hosted at the Los Angeles City Hall for over 150 elementary school students where they were able to sit in on a City Council Meeting, test their engineered egg drop devices and engineer their own earthquake-proof gum drop structures.

Middle School Day

Hosted at Los Angeles Department of Water and Power's La Kretz Innovation Campus where over 100 middle school students were able to tour the facility, do hands on engineering activities, as well as hear from professional engineer speakers from LADWP and NASA JPL.

High School Day

Hosted at the University of Southern California where over 120 high school students were able to learn about the different engineering disciplines, play jenga with an engineering twist, engineered catapults, and participated in an engineering career fair.

2020 EVENTS

Girl Day

Hosted at the Caltrans District 7 Headquarters for over 125 middle school girls where they did hands on engineering activities with the help of 30 professional engineering mentors, and heard from Dream Big Film Star, Menser Pehlivan, about breaking the mold in engineering.

Girl Scouts Day

Hosted at the University of California, Los Angeles for over 120 Girl Scouts where they were able to participate in hands on engineering activities to earn a STEM badge, and hear from a panel of engineering students on what inspired them to pursue engineering.

2021 VIRTUAL ENGINEERS WEEK

HELP US IMAGINE TOMORROW

All Engineers Week 2021 events will be held virtually due to COVID-19 considerations. Now is a better time than ever to inspire a diverse group of young students to become leaders in Science, Technology, Engineering, and Math (STEM) and build a better tomorrow.
